

## **Dentist's Provident Society Makes Annual Donation to Dentaïd**

Dentist's Provident Society (DPS) has donated £6000 to Dentaïd, the charity devoted to improving the oral health of disadvantaged communities around the world. DPS, the UK's leading income protection provider for dental professionals, has made an annual contribution for the past 5 years, making it one of the most generous and long-standing supporters of Dentaïd's vital and expanding work.

"Dentaïd would like to thank the Dentists' Provident Society once again for its fantastic support. We have massively increased our programme of activities and services overseas and this annual donation is very timely once again as we try to improve oral health conditions and access to care for some of the most disadvantaged communities around the world. Dentists' Provident has proved its commitment to our work time and time again and has played a big part in the successes we have achieved improving oral health care for needy communities in over 50 countries over the last few years," commented Dentaïd's Chief Executive, Luke Wordley.

Ian Passey, Dentists' Provident Society's Chief Executive, added:- "We are proud to support Dentaïd and help the charity continue its vital work within the developing world. It is great to be able to help those who do not have the same access to a dentist as we do in the UK. It is hard to imagine being in so much pain that you are driven to visit an unqualified street dentist without anesthetic or sterilisation. The need for Dentaïd's work is huge and we are delighted to be able to support their work."

Dentists Provident Society also supports Dentaïd's annual golf day and this year part-sponsored Dentaïd's 10-year anniversary stand at the 2006 BDTA exhibition in London.
